## Aims and Scope

Journal of Life Science and Applied Research (JLSAR) is a quarterly international journal that accepts research articles, reviews, and short communications of content related to life sciences. Research articles and short communications must report original work not previously published in any language and not under consideration for publication elsewhere. The main aim of JLSAR is to publish papers that report research findings in life sciences. Journal of Life Science and Applied Research (JLSAR) publishes original research papers, review papers, and case reports. JLSAR is open access Journal, the publication is dedicated to bringing together intellectual and professional scientists, Research articles make an original and significant contribution to the field of study within the scope of the journal. These articles should be of interest to a broad audience, scientifically sound, well-written, and concise. Short communications must report completed work, not preliminary findings.

Reviews aim to provide an overview of an issue of great interest or topicality. Reviews will be invited by the Editorial Board. However, potential authors can suggest topics to the Editor-in-Chief. Authors must be experts and have several publications on the subject, as well as the public sectors who are engaged in efforts to understand the life sciences in fields of Biology, Microbiology, Pathology, Clinical Pathology, Parasitology, Biotechnology, Virology, Histology, Pharmacology, Epidemiology, Immunology, Hematology, Toxicology, Physiology, Embryology, Molecular Biology, Zoology, Ecology, Entomology, Anatomy, Taxonomy, Biodiversity, Biochemistry, Bioinformatics, Biophysics, Photochemistry, Genetics, Genetic Engineering, Public Health, Veterinary Science, Food Science, Agricultural Sciences and Botany.
